CHARRED BODY OF MAN FOUND IN RUINS OF BURNED BARN

PROTEST PROPOSED RATES INCREASE

The Chamber of Commerce Voices Negatively, By Directorate, More Toll Which Bell Telephone Company Invokes

REASON IS POOR SERVICE

Dissent Sentiment, As Locally Applied, Will Be Forwarded By Secretary Heffran to the Commission—Chamber Is To Institute Drive For Members

At the regular monthly meeting of the directorate of the Chamber of Commerce held in the secretary's rooms of the Municipal building, last night, the body went on record in protest in the proposed increase of rates involved by the Bell Telephone Company through the Public Service Commission the hearing on the appeal having not as yet been fixed by the Commission. The directorate, individually and collectively, voiced their disapproval of the proposition, locally speaking, and their dissent will be forwarded through the secretary, James T. Heffran, to the Public Service Commission. The principal reason ascribed is the inadequate service which the patrons of the company are receiving; sufficient pay for the service rendered.

Secretary Heffran was instructed to ask council, in behalf of the Chamber of Commerce, that it was the sentiment of the membership that the body should place police in Washington avenue or on other thoroughfares where machines are parked Saturday nights, when the downtown districts are congested and the local officers are required in the business streets, inasmuch as too much opportunity is afforded for petty thievery. It was decided at the meeting that a "roundup" be made of the delinquent members of the body, and a drive will be instituted for new members, probably this week, or as soon as the chairman of the committee, George W. Night, gets his work lined up for the campaign. The committee of the Chamber having in charge the White Way system, a contract with which has been formally entered into with the West Penn Power Company by the borough council, was given a vote of thanks by the directorate in behalf of the entire Chamber of Commerce body. But developments of the last few hours indicated they might return within the fold.

The Ideal Beauty Parlor. The place to secure that well groomed appearance. Call 306 to make appointments for manicuring, shampooing, bobbing, scalp treatments, and massaging.

125 NEW NAMES NEW BANK HEAD ADDED TO ROLL ASSUMES DUTIES

That the Chamber of Commerce in Washington is appreciated is attested through virtue of the fact that as a result of a 10-days' drive, 125 new members were added to the roll of membership.

Last night a banquet was held in honor of the success that has been achieved on the part of the workers, with John L. Stewart, president of the Observer Publishing Company, making the welcome address to the roster of new membership.

BURGLARS, ACTIVE, GET LOOT OF SEVEN HUNDRED

Pittsburgh, May 2.—(United Press).—Burglars were active in Pittsburgh during the night, breaking into three residences in and near the East End, obtaining a large quantity of property.

NOTICE. The D. of A. will hold a bake sale in the West Penn Power office tomorrow afternoon. 280t1-p

WANTED AT ONCE. Clean cotton rags. Will pay 5c per pound. Bring to Mail office at once.

M. ROSENBLOOM IS NAMED AS THE VICE PRESIDENT

In the fourth annual convention of the state association of postmasters, held yesterday in the Fort Pitt hotel, Pittsburgh, Dennis A. Harris, of Pittsburgh, was named as president, and Michael Rosenbloom of this place was signally honored by being chosen vice president.

A resolution was adopted unanimously, urging the Senate and House of Congress in Washington to give favorable consideration to the request of the postal employees for increased salaries.

Washington, Pa., was chosen as the place of meeting next year.

Thousands to Be Spent For Construction of Six Highway Projects

BELIEF EXISTS FOR EARLY CLEAN-UP OF TAX MEASURE

Washington, May 2.—(United Press).—Agreement to expedite the tax bill reached at a Democratic caucus which lasted late into last night, has revived hopes for an early clean-up of the measure in the Senate.

Under the agreement the Democrats will today put forward their substitute shunting scale corporations tax and a slight revision of the inheritance tax.

Democrats now claim nothing remains but to explain the issues briefly and vote.

The Democrats appear to have mended the split in their ranks. Sen. Penn Power Company by the borough council, was given a vote of thanks by the directorate in behalf of the entire Chamber of Commerce body. But developments of the last few hours indicated they might return within the fold.

Senator Smoot, chairman of the finance committee, has threatened night sessions of the Senate unless the bill is soon disposed of, pointing out that if the tax bill is delayed it means death to some other bill which cannot be squeezed in before planned adjournment.

Mail Dispatch Reverts To Its Old Time

Postmaster S. D. R. Hill informs us that effective Sunday, May 4, the dispatch of mail northbound to or Pittsburgh will be made on Train 7779, leaving Charleroi at 5:37 p. m.

Postoffice lobby will be open from 10:30 to 5:30 on the Sabbath day.

NEW EDICT PROVES TO BE SUCCESSFUL

The edict that there shall be no left hand turns in the business district of Charleroi, has proven successful, according to Chief of Police James J. Murphy this morning. This applies on Saturday night, from Fourth street to Seventh, in both McKean and Fallowfield avenues. Mr. Murphy also wishes to call the attention of the public to the matter of parking on the right side of the street a position to which the drivers are fast becoming familiar.

Contracts for the construction of six highway projects in the county, aggregating a total of \$370,820.55, were let yesterday by the county commissioners. The contracts let yesterday were for all those for which bids were opened on April 22, with the exception of the Gastonville-Elram road, Section No. 3, 5,625 feet, on which action was deferred. Included in the projects let are a number of important highways. The contracts awarded and the successful bidders are:

McMurray road, Section No. 1, beginning at the village of McMurray in Peters township, and extending to the Allegheny county line, a distance of 9,200 feet, more or less. Awarded to Hardy & Rankin, Canonsburg, for \$74,368.85.
Hill Church-Eighty-Four Road, Section No. 4, beginning at the end of the present concrete road at the Donaldson farm, and extending southwardly to the end of the brick road near Wyland, a distance of 10,350 feet, more or less. Awarded to John Herd, Washington, for \$83,509.60.
Pike Run road, section No. 4, beginning at the western end of the present brick road and extending westwardly to the Deems property, a distance of 3,600 feet, more or less. Awarded to Donora Construction Co., Donora, for \$89,699.
All of the above roads are to be constructed of reinforced concrete, sixteen (16) feet wide.

McClane's Bridge - Meadowlands road, beginning at the Pennsylvania railroad, near McClane's, and extending to Meadowlands, a distance of 5,200 feet, more or less. Awarded to W. K. Reed & Co., Waynesburg, for \$45,474.60.
Houston-McConnells Mill road, beginning at western end of the present concrete road and extending westward to the Export mine, a distance of 8,000 feet, more or less. Awarded to W. K. Reed & Co., Waynesburg, for \$52,667.50.

All the above roads are to be widened and resurfaced with Willite.

Short Creek road, beginning at Station 136-30, near the village of Sparta and extending westwardly to the village of Old Concord, a distance of 9,400 feet, more or less. Awarded to Petriello Bros., Brownsville, for \$75,015.00.
This section of road is to be constructed with telford base and water-bound macadam surface. When completed it will give an improved high road.

All the awards were made on the condition that release of damages be signed by all property owners along the routes of the several projects.

NATIONAL RESTAURANT

541 McKean avenue. Special dinner and supper 30-35c. Steak and pork chops 40c. Good cooking. 274t20p

BELIEVE VICTIM MURDERED AND PLACED THERE

Greenville, Pa., May 2.—(United Press).—The charred body of an unidentified man was found in the ruins of a barn destroyed by fire on the farm of Samuel J. Wylie, near here, early today.

County detectives, after an investigation, believe the victim had either been murdered or killed by an automobile and the body placed in the barn, which was fired in order to cover up all traces of the crime.

A cap, believed to have been worn by the victim, was found in a wheat field a quarter of a mile from the barn. The cap was found in the work of a manufacturer in Meadville was found.

MORE THAN 10,000 PARADE

More than 1,000 miners participated in a May Day demonstration at Bentleyville that took the form of a booster meeting for the Farmer-Labor party Thursday.

Reports were current that the celebration was to take the form of a gathering of "reds" and to see that nothing of the kind was attempted. Chief County Detective William B. Dinsmore and Sergeant John Tomch, Corporal E. T. Cohen and Detectives Haxton and Onky, of the state constabulary were on the scene.

No disorder of any kind occurred. The procession was headed by a band and marched from Bentleyville to Gibson, the latter about a mile and a half distant, and then returned to Bentleyville, where there was speaking.

Speakers made attacks on the capitalists for what they termed their mismanagement of the affairs of the nation, pointing to the "Teapot Dome" scandal and others growing out of it. A few of "red" sympathizers appeared, with badges pinned on the lapel of their coat to which was attached a piece of red ribbon, the badge bearing the following: "Down with the capitalists, Tea Pot Dome. Forward to a farmers and workers' government." Figures on the badge were a farmer carrying a scythe and a laborer with a sledgehammer.

These badges were confiscated by the officers.

The American flag and standards of the United Mine Workers of America were carried at the head of the procession and practically every man in line wore red, white and blue ribbon.

NECESSITY OF A NEW PROGRAM IS AN ISSUE

Washington, May 2.—(United Press).—The possible necessity of a new naval construction program in view of enormous expenditure today engaged the attention of members of the House naval affairs committee.

So far this session the committee has reported construction bills authorizing the building of eight cruisers at \$11,000,000 each and the reconditioning of six first line ships at a cost of over \$18,000,000. But the report of Admiral R. E. Condit that the navy was in many fundamental respects far below arms pact strength has awakened the committee to the possible requirement of a thorough-going general construction program.

As the first step in this Representative Britten, ranking Republican of the committee, yesterday, introduced a bill authorizing \$6,500,000 to elevate the turret guns of 13 battleships. As the next step he prepared today a resolution providing for a complete investigation of the navy by the committee.

Such an investigation he said would continue for several months and result in a report on just what the navy needs.

he said, he had been informed, might require a construction program costing "a great deal of money."

Before preparing his plan for the gun elevation and the general investigation, Britten accompanied by Chairman Madden of the appropriations committee, conferred with President Coolidge. Britten said the president approved of the investigation outlined in Britten's resolution.

Driver Suffers Broken Rib In Auto Accident

A flat tire caused a Buick touring car to leave the highway near Mingo stop last night and injured Frank D. Erdmone, a meat dealer, whose place was slightly cut by flying glass.

Erdmone was traveling at a fast rate of speed along the Riverview-Finleyville road, when suddenly a front tire blew out and he lost control of the car. It plunged into a bank at the side of the road, where it careened backward into a ditch at the side of the road. Erdmone sustained a fractured rib when he was thrown against the steering wheel and was also cut about the face by broken glass. He was taken to Monongahela in a passing automobile soon after the accident occurred and was given first aid ere being taken to the hospital by a Monongahela doctor. The car was afterwards taken to a garage in Monongahela.

BIG LOT SALE Monongahela City. See advertisement. 273.2

Canonsburg Man Is Fined For Unlawful Possession of Liquor

Reed Price, of Canonsburg, indicted on a charge of the unlawful possession of liquor, upon a plea of guilty before Judge James I. Brownson yesterday afternoon was sentenced to pay the costs, fine of \$100 and to undergo imprisonment in the county jail for 20 days. If the fine and costs are paid he will be released in ten days.

A bill against Reed, charging him with driving an automobile while intoxicated, was ignored by the grand jury. The facts on which charge was based did not materialize at the same time as the liquor charge. However there was insufficient evidence to find a bill on the driving while intoxicated charge.

In the liquor charge there was no evidence of sale. Price's arrest was made by Special Officer Bowser, of Canonsburg, after a lad, whose brother-in-law had been drinking to excess, followed the brother-in-law to Price's house. The boy testified he saw his brother-in-law come from the house with a quart of liquor. He did not see it sold to the brother-in-law. Price denied selling any liquor.

Investigation of the case elicited the information that opinion about Canonsburg was divided about Price. Some gave him a bad reputation and claimed that he was bootlegging. Others claimed he was not as bad as he was painted. It was learned that he was a moulder at the George pottery and that he has worked steadily for 12 years. It was learned though that while he works steadily through the week he had a habit of getting under the influence of liquor over Sunday.

MISSIONARY TO SPEAK AT A LOCAL CHURCH

Miss Bernice Wood, a returned missionary from China, will speak at the First Free Methodist church this evening at 7-45 o'clock. Her years of experience in the foreign field will enable her to bring messages of worth to one and all. Miss Wood has many interesting things to relate, and it is expected that the church will be filled to capacity this evening. Everyone is welcome.

SEARCHING FOR MAJOR MARTIN Cordova, Alaska, May 2.—(United Press).—The icy coasts of the Alaska peninsula are being searched today for Major Frederick L. Martin, commander of the American round the world expedition.

The Algonquin and Haidi, both coast guard cutters, are plying in and out through the dangerous coasts braving the gale, attempting to locate the missing American pilot.

"HOUSE THAT JACK BUILT" IS FINE

MORE THAN 8,000 MINERS ON STRIKE

Wilkes-Barre, Pa., May 2.—More than 8,000 miners at the various collieries of the Glen Alden Coal Company in this section were still on strike today, awaiting the outcome of a meeting of the general grievance committee called for tomorrow.

The committee called a general strike Tuesday in defiance of district officials of the union. The men have gone back to work on orders of District President C. C. Cupp. The strike was called in sympathy with an officer of the Woodward local, who was discharged by the company.

KNUTSON, ACQUITTED, IS WARMLY CONGRATULATED

Washington, May 2.—(United Press).—Acquitted by a jury of a serious charge filed against him, Representative Harold Knutson, Minnesota, today was the recipient of the warmest congratulations of his colleagues in the House.

POLICE MAKE BUT ONE ARREST YESTERDAY

Burgess J. Bryant Tussing had but one case last night, that of a plain drunk, North Charleroi man, who was fined \$1 and costs.

MAN'S ACTION AT LEAST POSTPONES THREATENED WAR

New York, May 2.—With the withdrawal of his resignation from the Davis cap squad by Vincent Richards and its acceptance by the U. S. Tennis association, the war between the Association and the players was temporarily removed from the crisis stage today.

After being given an official opinion that he was still regarded as an amateur and that his case would not be reviewed until next year, Richards, asked to have his resignation withdrawn and the withdrawal was accepted.

Richards' case differs from that of Tilden in that the association has told the champion that he will be a professional next year if he does not stop writing and it has not reviewed the case of Richards.

It is thought possible now that the circumstances of the Richards case might lead the association to grant him exception from the rule and permit him to play and write next year.

Mother Goose And All the Characters Brought to Life In Pleasing Manner At the High School Auditorium Last Night

WHAT THE STORY TELLS

Seven Hundred And Forty-Nine Children Take Part, And Acquit Themselves With Great Credit—Praise Is Due Prof. Braman And Teachers

Mother Goose and all the characters of story book land were brought to life last night in the presentation of "The House That Jack Built" which was presented to a highly appreciative audience in the auditorium of the High School here. The big cast which was entirely made up of children from the schools of the town, was remarkable in action and in the manner of speaking parts. It can be safely said the entertainment last night greatly surpassed that of work done by older boys and girls. The music furnished by the High School selected orchestra added materially to the success of the play.

The story opened in a clearing in the woods. Jack, which part was successfully portrayed by James Neill, the son of Mother Goose, is building a new house and wishes to finish it on his birthday. Mother Goose, by Miss Romola Sutherland, was one of the outstanding features of the play. Miss Sutherland's work was highly complimentary.

Jack tells his mother that the Knave of Hearts, a noted thief, by John Bosson, which part was also well read in that locality. Mother Goose is alarmed and has Jack lock the Humpty Dumplings in the house safely and hangs up the key, as Mother Goose is planning a birthday party for Jack. The role of the Humpty Dumplings by Roy Davis, Albert Lan, Richards and its acceptance by the U. S. Tennis association, the war between the Association and the players was temporarily removed from the crisis stage today.

After being given an official opinion that he was still regarded as an amateur and that his case would not be reviewed until next year, Richards, asked to have his resignation withdrawn and the withdrawal was accepted. Richards' case differs from that of Tilden in that the association has told the champion that he will be a professional next year if he does not stop writing and it has not reviewed the case of Richards.

It is thought possible now that the circumstances of the Richards case might lead the association to grant him exception from the rule and permit him to play and write next year.

PLACES ARE ORDERED CLOSED

Present indications are that the continued to carry on their practices unmolested.

Scenes in the district during the past week have been beyond description and visitors by the hundreds have flocked to these houses. The majority of these visitors are attracted to the vicinity by the show at the bridge and having heard of the "wide open district" paid their respects to Wireton.

The action of Constable Wyman should be the death knell of these houses, and if the order is main closed is not adhered to, final prosecution should be taken. The inmates ordered out of the district, and the houses padlocked.

INCLOSE YOUR LAWN.

Your lawn will be a delightful part of the home, if it is attractively fenced. A nice lawn fence enhances the appearance of both front and back lawns, commands respect for your property rights and protects grass, flowers and shrubbery. Children especially need the protection of a fenced lawn; it safeguards them from the dangers of the streets, enables you to select their playmates, and keeps away vicious or fighting dogs. "Pittsburgh Perfect" lawn fences excel in beauty, neatness and durability. Made of heavy gauge, thoroughly galvanized wires throughout, inseparably welded at every contact point by electricity. There are no protruding wire ends, and the fence cannot pull apart or lose its shape. A permanent and dignified improvement for city, farm and suburban lawns, as well as for parks, cemeteries, playgrounds, etc. Closely spaced wires keep out chickens. Several attractive designs, both ornamental and plain. Moderate in cost.

You'll want to know more about our Lawn and Flower Fences, also our Poultry Fences.

Dodging Difficulties

Using checks instead of actual cash is the best way to pay bills—and dodge arguments and difficulties.

For a checking account gives you an accurate record of all payments made—and your canceled checks are valid receipts.

Convenience, safety and freedom from annoyances such as often mark cash transactions, are three strong reasons for a checking account at this live, progressive Institution. There are other benefits, too—stop in, we'll list them while you open your account!

Wood Lighter Than Cork.

In spite of the advances of practical science, there are still some indispensable materials the making of which is still nature's secret, and for which no entirely satisfactory substitute has been found. Among these substances is cork. It is possible, though, that nature herself, in this case, offers a substitute in the wood of a tree growing on the coast of Lake Tanganyika, in Africa, which is of even less specific gravity than cork.

Farce and Comedy.

A farce is a dramatic piece of a broad character and the difference between it and comedy proper is one of degree and not of kind. The aim of both is to excite mirth, but while the comedy does so by comparatively faithful adherence to nature and truth, the farce assumes a much greater license and may make use of any extravagance or improbability that may serve its purpose.

Filling Stations for Pens.

Filling stations for fountain pens are in use on the campus of the University of Chicago. A penny in the slot operates the machine. The dropping of the coin and the turning of the handle releases ink from the reservoir and the fluid runs into the right-hand well where it can be sucked directly into the pen or put in by means of the dropper provided.

Old Salt in Fresh Water.

The master of the salt water steamship Aggen, from Bergen, Norway, refused to accept the aid of tugs to pull his vessel off a sandbar in the harbor of Superior, Wis., where she had grounded. He preferred to wait for the tide and was surprised when it did not come in.

Curious Siamese Custom.

Among the Siamese the curious custom obtains of reversing the elbow joint of the left arm as a sign of superiority. The children of both sexes are trained to hold their elbow in this painful position at an early age. If their parents are persons of high grade.

Lake Superior Largest.

Lake Superior is the largest body of fresh water in the world. It has an area of 31,200 square miles. The Caspian sea is sometimes classed as a lake. In this case, it would be the largest in the world, having an area of 168,765 square miles.

Frisled Lizard of Queensland.

A curiosity of Queensland, in Australia, is the frilled lizard, which does not crawl, as all other lizards do, but walks about on its hind legs, and when standing perfectly erect is often more than a yard high.

New Tan Bark Supply.

The construction of the canal through lagoons near Acapulco, Mexico, has brought to light an almost inexhaustible supply of mangrove trees, the bark of which is used in the tanning industry.

Beware the Flapper.

Just when a young man begins to think a great deal of himself as he climbs the ladder of success, a young flapper comes along, smiles impishly, he proposes and he becomes a failure.

Big Lighthouse Organization.

In the largest lighthouse organization in the world the United States government maintains 16,373 aids to navigation and uses 117 vessels, including lightships.

First Protestant Bible.

The only known copy of the first Protestant Bible printed in Latin was given to the public library of Cambridge, Mass., recently by an anonymous friend.

Woman Deputy Attorney General. Mrs. Jeannette Brill, a practicing lawyer of Brooklyn, is the first woman to be appointed a deputy attorney general of the state of New York.

The Good Samaritan.

The strong thing about the Good Samaritan who helped the stricken was that he poured in oil instead of demanding it.—Duluth Herald.

Lots of Times.

Jud Tunkins says sometimes you have to give a boy a college education to convince him he doesn't know everything just naturally.

Looking Backwards.

Bobbie—"When were the dark ages, ma?" Ma—"Back in the days when men gave up their seats in trolley cars to the ladies."

Some Advantage.

Probably half the pleasure a woman gets out of life is due to her ability to change her mind and complexion at will.

When Happiest.

Men of the noblest dispositions think themselves happiest when others share their happiness with them.—Duncan.

Tractor—Ditch Digger.

By a new attachment it is possible to convert a small tractor into a ditch digger.

Origin of River Jordan.

The River Jordan has its origin in one of the largest springs in the world.

More Ghosts.

Some of the things that conscience

Waste of Time.

Don't waste time reasoning with an angry man.

Italy Leads in Lemons.

The bulk of lemons entering into world trade are from Italy. Her exports in both 1920 and 1921 were approximately 1,000,000 boxes, which was about half the pre-war figure of 2,000,000 boxes. Imports into the United Kingdom amounted to 1,000,000 boxes in 1921, as compared with 700,000 boxes in 1920 and 900,000 boxes in 1913. After the United Kingdom, Germany and the Netherlands are the heaviest importers of lemons.

Inscribed Stone Under Lava.

Miners working more than 200 feet beneath an old lava flow at Columbia, Cal., found an irregularly-shaped granite tablet on which queer hieroglyphics were carved. Evidently the carvings, which were regular in form, date from prehistoric times. Scientists are trying to decipher them.

Hardest Substance.

The hardest substance known is probably the diamond, and the next carbide. The softest metal is mercury and the next potassium. Of the more common metals lead is probably the softest with gold next. Gold is probably the most malleable metal and silver next.

About Ready to Graduate.

It was Kenneth's first day in school. When the children were all seated he raised his hand and said: "I can spell my own name, so you won't have to bother to teach me much."—Boston Transcript.

Sagacious Minds.

A powerful and sagacious mind anticipates coming events by forethought, coming to a conclusion somewhat in advance of what may possibly happen in either case, and what ought to be done in that event.

Chinese General's Plans.

A Chinese general plans to teach Chinese soldiers scientific cultivation with modern farm machinery and then organize them into labor brigades for colonization of the vast waste lands of northwest China.

Thinnest Thread.

The thinnest thread visible to the human eye is so small that it would take a bundle of a thousand of them to equal the diameter of a woman's hair. These threads are made from melted quartz.

Beats the Trolley.

Toussed Lady (in hurry-up wagon, to cop)—"Well, old sport, there's one thing about this here limousine; yer gets a comfortable seat and don't have to do no strap-hangin'."—Boston Transcript.

Making Jelly From Seaweed.

To produce fine vegetable jelly from seaweed the weed is first dried in the sun then boiled and exposed to a freezing temperature, after which all water is evaporated; then it is ready for use.

Churn Her Up.

Hi Herd—"Yes, I need a man fer helpin' about. Er man who can milk and drive a Ford car." Loosfoot—"Well—or—I can drive the car, but I'm darned if I can milk it."

Sea-Hares for "Spider in Cup."

Sea-hares, small sluglike mollusks, were notorious among the ancients for their supposed venomous properties and were often used as ingredients of poisonous potions.

Pay Bill in Pebbles?

That prehistoric surgery was accomplished with a flint knife, is indicated from a skull of a man found recently in New Mexico which had been trepanned.

Cheerful Thought.

Benham—"Man is descended from the monkey." Mrs. Benham—"I can readily imagine your ancestors as traveling companions for hand organs."

Then the Tragedy.

"De Lawd made you an' me an' de flovins," said Charcoal Eph, romantically, "an' He didn't make no mistakes entwile He staided you an' me."

But Few Streams.

Along the entire Lower California coast line, longer than from Key West to Boston, there is only one all-the-year-around stream entering the sea.

Tiger's Strength Great.

Tiger's jaws and teeth easily crush the large bones of a buffalo and the striped animal can break a horse's back with one blow of his forepaw.

Scorpions' Stings Not Fatal.

Scorpions range from two to eight inches in length, and while they are able to inflict a severe wound with their sting, it is rarely fatal.

You Said It!

It is frequently difficult to separate the man who claims to have a soul above mere gain from a little of his money.

One's Judgment.

Our judgment is something we take no particular pride in, if we don't have to exercise it in behalf of other people.

Riches and Poverty.

The embarrassment of riches may be great, but it is as nothing compared with the embarrassment of poverty.

See Them a Mile.

Dials of the four clocks of the clock tower on the houses of parliament, London, are 23 feet in diameter.

ANNUAL "CLEANUP" WEEK.

Next week Monday will inaugurate
in the borough what is known as an-
nual "Cleanup" week.

On the face of it, there seems to
be no necessity for a "Cleanup" week,
as people living on either owned or
leased premises are presumed to keep
them clean and in sanitary condition.
But the fact remains that there are
a certain number of people in any
town who are a little remiss in this
regard, whether owner of a property
or a renter.

The institution of "Cleanup" time
has stirred home patriotic impulses
and made home a better place in
which to live. For a man cannot be
a 100 percent patriot and at the same
time have a dirty backyard. To make
people have a little more regard for
cleanliness and sanitation, was the
proposition and intent of "Cleanup"
day or "Cleanup" week promoted and
carried into effect.

Despite the fact that Charleroi is
presumed to be a model for other
places to emulate, Health Officer Wil-
liam M. Darby informs us that last
year approximately 850 loads of re-
fuse were removed from the borough
limits and summary disposition made.
Leased premises are presumed to keep
of it as well regulated as are the
boroughs, "Cleanup" is needed.

The Mail recommends that people
of the community read carefully the
pamphlets being distributed by the
Boy Scouts in this health and clean-
up campaign, as the pamphlet will
aid them greatly in just what they
ought to do in the premises for the
results to be obtained will justify the
means to an end.

ONLY "NORDIC" IMMIGRANTS?

It is pretty generally conceded both
that immigration should be restricted
as to numbers and that there should
be a careful selection with a view to
quality. The former is relatively easy.
The latter, though manifestly difficult
in practice, would seem to be simple
enough in theory, involving only ex-
amination of those wishing to come
to America by trained agents sent to
points in Europe. But apparently this
is by no means the whole of the
matter. In and out of Congress the
demand is made that only "Nordic"
immigrants be admitted, or those
coming from such countries of north-
ern Europe as Great Britain, Scan-
dinavia, Germany and the Nether-
lands. One would think that some
very good material might be found in
France, Italy and perhaps even in
Spain, but it is vehemently asserted
that the Latin races won't do, to say
nothing about the peoples of south-
eastern Europe.

It has been held that the races of
northern Europe are now the strong-
er because they are relatively young,
while the races of the South are the
weaker or more effete because they
are old and nearly worn out, so to
speak. All the historically known an-
cient peoples were of the South,
warm climates being the natural
cradles of civilization because in the
bleak north so large a part of man's
energies was for ages wasted in the
effort to keep warm. This was sup-
posed to explain why there was civil-
ization in Egypt and Babylon when
the savages of northern Europe, so
far as known, were still killing each
other with stone axes. But now here
comes Prof. H. E. Osborn of the
American Museum of Natural History
and tends to upset all this reason-
ableness with the declaration that
"my own race, the Nordics," included
"all those peoples which originally
occupied the western plateau of Asia
and traversed northern Europe cer-
tainly as early as 12,000 B. C." He
does not say that these Nordics of
Asatic origin are the oldest of known
peoples, but he implies it for 14,000
years might carry us beyond the be-
ginnings in even Egypt and Babylon.
Naturally Prof. Osborn does not give
much information about his ances-
tors who lived in Northern Europe 14,
000 years ago, for there isn't any liv-
ing around that he can lay hands on
all the remains of ancient cities and
civilization being found in the
South.

When the great Romans adventur-
ed into the North 12,000 years after
the supposed movements of Prof. Os-
born's Nordic ancestors they found
only woodland savages or semi-civil-
ized people, but if these undeveloped
Nordics had really been there 12,000

HAMBONE'S MEDITATIONS

DESE HARD TIMES!

Copyright, 1921 by McClure Newspaper Syndicate

years the point that seems to be
raised is this: If the Nordic races
are more ancient than the Latin races,
have they not passed their zenith and
entered upon the road toward decline?
If the descendants of the Romans, on
the other hand, have already had their
decline, may they not now again be
on the upward grade? For it will not
do for Prof. Osborn to pick out the
great French and Italian names of the
present and recent centuries—
Joffre, Foch, Napoleon, Garibaldi,
Galileo, Raphael, Columbus, etc., etc.,
—and guess that they are really Nord-
ic. In doing this he merely calls to
mind the ridiculous German claim
that all the great men of the world
owed their greatness to at least a few
drops of eutonic blood.

No. It is not necessary to open our
gates to Nordics only and shut them
against everybody else. It is a ques-
tion of selection based on possibili-
ties of assimilation. For obvious rea-
sons we don't want Asiatics, and
southeastern Europe may be doubtful
recruiting ground; but while the
northern Europeans are nearer the
larger part of the old American stock
in blood, it is quite certain that the
Latin races with imperishable his-
tory and great genius behind them,
ought to be able to furnish us some
very good material.

All play and no work is apt to make
a cake eater out of Jack.

How did you puncture your tire?
Ran over a milk bottle.
How come, couldn't you see it?
Naw, the kid had it under his coat.

Man sentenced to be hanged told
the warden he would like to take some
exercise and the warden asked him
what kind. "I would like to skip the
rope," he said.

Paris looks for shorter skirts says
a cablegram, and it will continue to
look after they arrive.

A radio set is a fine thing to
amuse yourself with while your guests
chatter about fashions and prohibi-
tion.

It is comforting to the poor in-
telligencia to know that many a
one-cylinder mind is running an eight-
cylinder car.

The passing of the corkscrew left
us plenty of substitute synonyms for
crookedness.

If you think the world is growing
worse, examine yourself.

Home was never like this, said the
lunatic as he settled back into the
cushions of his padded cell.

Let no one but the guilty suffer
official death in boiling oil, but, let
no guilty man escape.

The reason a certain employee drives
a Ford is to save him the trouble of
knocking the ashes off his cigar.

Man Postpones His Funeral

"I am 66 years old and for past
two years have been suffering so badly
from stomach and liver troubles,
bloating and colic attacks that I did
not expect to live more than a few
months and was arranging my af-
fairs and even my funeral. Three
doses of May's Wonderful Remedy
entirely cured me." It is a simple,
harmless preparation that removes

nal tract and allays the inflamma-
tion which causes practically all
stomach, liver and intestinal ailments
including appendicitis. One dose will
convince or money refunded. At all
druggists.

No. 2983 in Equity.

Notice is hereby given that application will be made to the above Court on 25th day of May, 1924 at 10:00 o'clock, A. M. under the "Corporation Act of 1874," of the Commonwealth of Pennsylvania, and the supplements thereto, for the charter of an intended corporation to be called the "Polish American Political Association of Charlevoi, Washington County, Pennsylvania the character and object of which is to educate and instruct its members in the language, customs and Laws of the United States of America and the Commonwealth of Pennsylvania, so that they may become good citizens thereof; to encourage its members in their endeavors to attain the best American citizenship and prepare persons of Polish and Slavish birth, who assure to become citizens of the United States, to teach its members to observe the Laws and uphold the Constitution of the United States and the State of Pennsylvania; in furtherance thereof to maintain rooms where the members may meet and all reading matter there to be kept; and for this purpose to have, possess and enjoy all the rights, benefits and privileges of the said Act of Assembly and its supplements.

The proposed charter is now on file in the Prothonotary's office.

John A. McGlade.

Solicitor.

May 2-9-16

In Society's Realm

The Kensington of the Christ Lutheran church met in the Sunday school room yesterday afternoon.

There was a fine attendance and the time was pleasantly spent in fancy work and social converse. A dainty luncheon was served by the hostesses, Mrs. D. F. Worthington, Mrs. Mary Lippy and Mrs. G. M. Grier.

Word has been received by friends in Charlevoi of the marriage of Miss Dorothea E. Frederick, daughter of Mr. and Mrs. W. H. Frederick, and Robert Palmer Floyd, both of East End Pittsburgh which took place Wednesday, April 30 in Pittsburgh.

Miss Frederick was a former domestic science teacher of the Junior and Senior High School of Charlevoi and is very well known here.

In Wagner's Tea Room last evening, Misses Virginia D. Zollos and Miss Grace Heuple entertained the members of the Fortnightly club in its regular meeting. An enjoyable evening was spent in playing 500, four tables being in play. Miss M. J. Crouch received the favor. Mrs. Norma Coyle was the visiting guest present, substituting in the absence of one of the members. At 10:45 o'clock a dainty luncheon was served, after which the members adjourned to meet again in two weeks.

The Jane Allen society of the Christ Lutheran church met at the home of Mrs. J. R. Crouch of 706 Meadow avenue last evening, entertained by Miss Julia Stranko with a very good attendance. Final plans were made for the Mothers Banquet to be held Friday evening, May 1. Reports were made by the program and lunch committees. The business discussions, being dispensed with, the guests were ushered into the dining room, where a dainty luncheon was served by the hostesses, assisted by Mrs. J. R. Crouch.

A number of friends gathered at the home of Mr. and Mrs. Sam Hill of 616 Shady avenue Wednesday evening and accorded them a farewell party. Mr. and Mrs. Hill and family are moving to Brownsville next week where they will make their home. With about 16 guests present, a merry evening was passed in dancing, games and card playing, at the close of which a dainty luncheon was served by Mrs. Hill assisted by Mrs. Marie Halechko and Mrs. J. A. Gols. At a late hour the guests departed with well wishes for success and happiness extended towards the Hill family in their new home.

An interesting meeting of the Women's Missionary society of the Washington Avenue Presbyterian church was held yesterday afternoon in the Sunday school room of the church. After the opening exercises, and business session, which was presided over by Mrs. W. B. Pfeiffer, first vice president, in the absence of Mrs. Edwin McKay, the president, the lesson "Debt Eternal" was taken up. Mrs. J. B. Campbell was the reader and she was ably assisted by Miss Elizabeth Wise and Mrs. Alie Allman. Much stress was put on the needs of the community children for better education better religious education and the need of play grounds. Mrs. Mary V. Kinder favored the assemblage with several vocal solos. She was accompanied on the piano by Mrs. Helen Robertson. Luncheon was served by the hostesses, Mrs. Pentz, Mrs. W. D. T. hornberg, Mrs. James Dawson, Mrs. George Leith, and Mrs. W. G. Molleanauer, which concluded a very enlightening and enjoyable afternoon.

"HOUSE THAT JACK BUILT" IS GREAT

(Continued from First Page)

to the Queen by Frank Mathias, fight a duel. The Knave is seriously wounded and is banished. Then follows moriv-making at the request of Old King Cole and the Stars, Fairies, Grass Blades, Clouds and Pea Blossoms are reviewed by the King and his court.

Each and every child taking part in the entertainment is worthy of praise for the manner in which they carried out their respective parts. Professor Earl A. Braman, Supervisor of Music, and the teachers from the schools are also to be congratulated on the success of the play.

Tonight will be the last performance of the children in "The House That Jack Built" and a number of seats are still available for those wishing to witness the production.

All the parts in the story play were represented in the piece, the renditions reflecting credit in each instance.

ANNOUNCEMENT

The A. Nash Company's local office in the Wellington Hotel Building will close May 3 and will not open again until August 15, 1924. Saturday will be your last opportunity to get that all wool, tailored to your measure, suit at \$23.50. Yes, we have genuine Palm Beach suits at \$13.50. Gabardine Raincoats, \$23.75.

Mountain Has 20,000 Deer

Despite the isolated and inaccessible character of Kaibab plateau of northern Arizona, it is one of the most beautiful in the United States, and it is in fact a mountain with 20,000 deer.

Nowhere else in the United States can the same number of deer be found in an equal area, says the Detroit News.

The game preserve is thirty-five to forty-five miles in extent, and the deer are free to roam throughout this immense territory. Its isolation has helped the government to keep the hunters away. When the preserve was established in 1906 it was estimated that the area contained about 3,000 deer. An estimate made by representatives of the United States biological survey and forest service in 1923, after an extensive survey of the area, places the present number at 20,000.

This high, flat-topped mountain, sometimes called Buckskin mountain, but better known as Kaibab mountain, flanks the Grand canyon on the north.

They Battle Bugs.

The warblers are one of the most useful families of birds—they eat so many noxious insects and have scarcely any bad habits, says Nature Magazine. They nest in orchards, shade trees, willows, shrubbery and spruce forests. The yellow-throated warbler tenants orchards and shrubbery near standing or running water. A caterpillar is its favorite tidbit.

Meaning of "Equinox"

The term equinox means literally "equal night." There are two equinoxes, the vernal and the autumnal, in each year. When they occur the sun passes north or south, over the equator, and the length of night and day is equal over the entire world. The equinoxes occur about the 21st of March and the 21st of September.

Not Without Beer.

A Dutch concert is a social entertainment in which every man sings his own song at the same time that his neighbor is singing his, or in which each person present sings in turn one verse of any song he pleases, some well known chorus being used as a burden after each verse.

Builds Several Homes.

The red squirrels build their nests of dead leaves and shavings of hemlock and cedar bark, lining them with almost any soft material which they can find, says Nature Magazine. They are not always satisfied to have one home, but frequently have two or three.

The Scotch Recruit.

A young Scotch sentry was put on sentry-go outside the general's tent. In the morning the general rose, looked out of his tent, and said in a stern and loud voice: "Who are you?" The young man turned round smartly and replied: "Fine, sir! Hoos' yerse!"

Get the Air.

Blessed is the man who walketh not in the house of contagion, nor sitteth in the seat of the "cougher" nor standeth in the way of the "sneezer," but whose delight is in the wholesome air of the land and of this air doth he breathe, day and night.

Firefly "Some Battery."

Efficiency of the light of the firefly may be judged, says Nature Magazine, from the fact that the efficiency of a carbon incandescent lamp is 0.0042, of a tungsten bulb 0.013, of an open arc 0.072, of a quartz-mercury arc 0.063, and of the firefly 0.96.

Spiders Have Calling Organ.

Experiments seem to prove that spiders can call to one another. Several spiders have on the underside of their abdomens a round depression containing small, hardened projections, which is suggested to be the calling organ.

Binder for Cigars.

Chemists of Lehigh university have just perfected a binder for use in cigars which it is claimed will permit carrying a cigar in the pocket without fear of breaking it under ordinary conditions.

Old German Belief.

Among the old German settlers in Pennsylvania it was a popular belief that a boy could be cured of homesickness by placing salt in the hems of his trousers and making him look up the chimney.

Sedate Three Cheers.

Conferring a degree on some distinguished person is the sedate way that college professors give three cheers.

Compliments.

Pass a compliment as often as it is deserved; like bread upon the waters. It will return—and not always after many days.

Took Own Medicine.

A Los Angeles physician took some of his own medicine. The verdict of the coroner's verdict was "death due to unprofessional conduct."

Has Same Meaning.

Once, a huge solitaire diamond ring was displayed as the guaranty that one was a "success." Now, a motor car is preferred, instead.

Elastic.

Mr. Buyer—"This is the limit. It's tough to pay 60 cents a pound for a broiling steak." Mr. Butch—"Yep, but it's tougher when you pay thirty."

Research Work Stops.

Research by scientists in medicine and surgery in Germany is reported to be practically at a standstill because of lack of financial support.

The Dipper's Pointers.

The two stars in the side of the "dipper," opposite to the handle, are called the "pointers," because they point to the pole star, or North star.

Prominent Sharon Druggist Gives Expert Testimony

Tells of Actual Results Patrons
Have Received, and of Their
Statements to Him

Recommendation Is Un- qualified

Declares Sulac to Be a Splendid
Remedy for Stomach, Liver
and Blood Troubles

Other Druggists Over Wide Ter-
ritory Are Having Similar
Experience With This Re-
markable New Remedy

Druggists in every section of Penn-
sylvania who know Myer Collins,
prominent Sharon druggist, will be
interested in the experience he has been
having with a new remedy for stom-
ach and kindred troubles. Druggists,
naturally, are skeptical when asked
to order a new medicine. They are
used to having salesmen tell them
that their medicine is the best in the
world. But when they find that a medi-
cine is all and more than was claimed
for it they are both surprised and de-
lighted.

Mr. Collins very frankly says that
when he was asked to place a trial
order for Sulac he thought it was
just an ordinary medicine. The one
thing that made it stand out was its
record of sales in other places. So
like the progressive but careful busi-
ness man that he is, he ordered a
comparatively small quantity. Some-
what to his surprise the people who
bought the first of it came back for
more. By the time they had taken
two or three bottles they commenced
telling him of the good it was doing
them. This started him to investigat-
ing and he has written the manufac-
turers the following statement:

"About two months ago I took the
agency for Sulac, and I must say
that it is a splendid remedy for Stom-
ach, Liver and Blood complaints.

"Nearly every day people come
into the store asking for a good rem-
edy for the above complaints, and I
always recommend Sulac to them. I
find that the results are remarkable,
and that the people who have tried it
recommend it to their friends.

"Personally, I have found it to be
a product of real merit, and I am
glad to recommend it.

(Signed) Collins Drug Store,
By Myer Collins, Proprietor."

When food doesn't digest and lies
like a lump of lead in your stomach,
generating foul gases, bad breath,
and a bloated short-winded condition
condition, it is no wonder you get no
good from the food you eat, or that
you grow pale, irritable, sleepless and
headachy. Constipation, heartburn,
loss of appetite, restlessness, stom-
ach catarrh, gastritis, and acute indi-
gestion, and even more serious com-
plications arise eventually if neglect-
ed. It is for these distressing com-
plaints that Sulac is especially recom-
mended, and if you will give it a
fair trial you will find that it is all
that is claimed for it. In fact, if you
take six bottles and are not satisfied
with the results your druggist is
authorized by the manufacturers to
refund your money. Sulac is sold in
Charleroi by Henning's Drug Store.

Cornstarch Industry In America Is Enormous

The manufacture of cornstarch has
grown to such proportions in this
country that the industry now consumes
about 50,000,000 bushels of America's
great crop each year, according to the
Department of Agriculture at Wash-
ington. From each bushel of corn
the average manufacturer makes thirty-
three pounds of cornstarch, and in
1921 the ten largest concerns made
nearly 1,650,000,000 pounds of this
product, which was more than 90 per
cent of the total produced that year.

This industry, which began in the
United States in 1844, has been grow-
ing rapidly in recent years. By 1880
the factories had reached a productive
capacity of 230,000,000 pounds, and
practically all of it was consumed here.
By 1921 there were nearly 50 plants,
and \$6,000,000 worth of the output
was exported. These figures are from
a report recently made public by the
department following a canvass of the
industry.

"This department, through the bu-
reau of chemistry, which enforces the
food and drugs act, finds that corn-
starch, with the possible exception of
granulated sugar, is the least adulter-
ated of all food products appearing on
the markets," continues the depart-
ment. "In addition to being used for
food, it is also used for many techni-
cal purposes.

"In the food industry cornstarch
finds its greatest use as a basis for
the manufacture of corn syrup or glu-
cose, about one-half of that produced
in 1921 having been used for that pur-
pose. It is employed by confection-
ers in making gumdrops; by house-
wives and chefs in thickening sauces
and making custards. Confectioners
also use it for forms into which soft
candy is poured in making lollipops.
Large quantities are used in the man-
ufacture of baking powder and pie
fillers. It is also an important in-
gredient in cosmetics and pastes, and
is used to a limited extent in phar-
maceutical preparations."

Composer of "The Rosary"

Ethelbert Nevin composed "The
Rosary." He was born in Vinecreek,
near Pittsburgh, Pa., in 1862. He be-
gan to attract attention when ten
years old by his excellent piano play-
ing and when he was twelve he was
sent to Dresden, Germany, to study.

After returning from Germany he
settled in Boston and became a well-
known teacher and concert player, but
in 1893, the charm of Europe, es-
pecially Italy, was too strong to be
resisted, and the next seven years were
spent abroad, says the Detroit News.
The influence of southern Europe is
very evident in the dreamy, romantic
tone of much of his later music. In
1900 he became a music instructor at
Yale university and was in this work
when stricken with heart failure. He
died in 1901.

Few modern composers have ex-
celled Nevin in perfection of melody,
critics say. While "The Rosary" is his
masterpiece, "Narcissus" has received
no small amount of popularity. Other
compositions by Nevin are "Water
Sketches," "Day in Venice" and "Twins
April."

Oldest Known Will

The oldest known will, found among
the ruins of ancient Egypt and said to
be 4,500 years old, was so constructed
that its provisions would have to be
carried out if made today, William C.
Taylor, formerly recorder of wills, said
in a talk on "Wills," delivered at the
luncheon of the Newcomers club in the
City club of Washington.

Zoro Women.

The Zoro women of India are su-
preme. They woo the men, control
the affairs of the home and the na-
tion, transmit property, and leave the
men little or nothing to do. The re-
sult is, says an eminent scientist who
has investigated the race, that they
are the ugliest women on earth.

Available Gabriel's Call.

What has become of the man who
always wanted to die "with his boots
on"? He has a son who now expires
peacefully in bed sans tonsils, ap-
pendix, a tumor or two, and with a silver
plate in his knee joint. Times have
changed since the pioneer days of
America—worse luck!

Smoking a Real "Deadly Sin."

Smoking is a real deadly sin in some
countries today. It is probable that
more men have died from tobacco smok-
ing at the hands of Sikhs, Senussis and
Wahibis, whose religions forbid this
practice, than died under the Roman
empire for professing Christianity.

Whadjamean Slight Build?

Tasmanian Paper—A young woman
typist took part in the marathon race

The Parsing of Pants.

Lebanon has a colored man whose
homespun logic is hard to combat. For
instance, he insists that pants is an
"uncommon" noun because it is singu-
lar at the top and plural at the bottom.
—From the Lebanon (Ind.) Reporter.

Insects With Pleasant Odors.

There is a tropical wasp that builds
mud nests which, if crushed, smell
like raspberry vinegar, and several
other insects have equally pleasant
odors.

Window Refrigerator.

Its inventor has patented a refriger-
ator so mounted on hinges outside a
window that it can be swung to one
side to leave the window opening
clear.

Nothing to Worry About.

Scientists say there need be no fear
of the sun "dying" too quickly, and
of the earth getting cold. The sun's
heat will last, they say, for another
billion years or so.

Cattle Raising Lags on American Farms

While the number of cattle raised in
the United States has been maintained
at a comparatively high level, says the
National Bank of Commerce of Chil-
cago, in a recent survey of the live
stock industry, it has by no means kept
pace with the increase in population.
However, it is said, after a few years
of continuous cultivation even virgin
soil loses its power to produce abun-
dant crops. As a means of maintain-
ing soil fertility, the live stock indus-
try is of fundamental importance to
permanent agriculture, and as the
bank points out, is widely practiced in
the corn belt, where grain, especially
corn, is marketed in the form of live
stock. "Maintenance of soil productiv-
ity is so important to the farmer,"
continues the bank, "that it is an item
to include in determining net profit de-
rived from raising and fattening cat-
tle."

"It is estimated that 55 per cent of
the corn produced in the United States
is fed to live stock and 15 per cent is
fed to cattle. Approximately 85 per
cent of the native beef steers market-
ed in Chicago are fattened after hav-
ing been purchased as stockers and
feeders. Possibilities of further de-
veloping the beef cattle industry in
this country are indicated by a recent
survey by the Department of Agricul-
ture, which indicates that beef cattle
are kept only on 10 per cent of all
farms in the United States."

The survey mentions the increased
activity by American consumers of
leather as being partly offset by de-
creased consumption in Europe, and
says: "However, it has not been suf-
ficient to cause prices of cattle hides
and calf skins to advance permanently
in proportion to the rise in the general
price level of commodities.

Scents.

What are the most delicious scents?
Every one could make a list. Rupert
Brooke made one in one of his poems;
but it was not exhaustive. I know
what mine would contain, even if it
failed to include all. Sweet-briar in
the air, so vague and elusive that
search cannot trace the source. Pine
trees in the air on a hot day. Lime
blossoms in the air ("Such a noisy
smell!" as a small child said, thinking
of the murmur of bees that always ac-
companies it.) Brake fern crushed.
Walnut leaves crushed. Mint sauce.
Newly split wood in a copse. Any
kind of gardener's rubbish fire. . . .
A hot day on the South Downs when a
light wind brings the thyme with it.
The under side of a turf. A drows.
And I have said nothing of flowers!
—E. V. Lucas, in "Luck of the Year."

Gretna Green Marriages.

After the abolition of Fleet mar-
riages in 1754, Gretna Green became
notorious as the place of celebration
of the marriages of runaway couples
from England. In England publica-
tion of banns and the presence of a
priest at the ceremony were neces-
sary, but to conclude a lawful mar-
riage in Scotland at that time it was
only necessary for an unmarried cou-
ple to go before witnesses and declare
themselves man and wife. Gretna
Green marriages are now at an end,
however, in consequence of a law
which decrees that no irregular mar-
riage contracted in Scotland shall be
valid unless one of the parties re-
sides in Scotland, or has done so for
21 days next preceding such mar-
riages.

Pigeons Almost Human.

Homing pigeons probably are closer
to the human family than any other
form of winged life. The birds have
remarkable intelligence. They mate
in pairs, and the female of each union
has exercised her right of suffrage to
the extent that the male helps her in
hatching out the eggs and in caring
for and feeding the young. Night-
hawks and whippoorwills work chiefly
at night, when most birds are off duty,
and at daybreak their work is taken
up by the swifts and swallows. These
birds are provided with big scapnet
months, and as they swing through
the air over wide areas of country
they scoop up almost unbelievable
numbers of insects.

Soft Drinks in U. S.

Each year thirsty Americans con-
sume 4,000,000,000 bottles of soft
drinks, and this total does not include
beverages such as near beer made
from cereals. These drinks come from
10,000 bottling establishments and over
110,000 soda counters. The skilled
chemist has provided a host of fla-
vors which the consumer cannot dis-
tinguish from the original. The aroma
as well as the color and flavor of
fruits is being imitated. These bev-
erages contain nothing dangerous to
health, but the food and drugs act
demands that such products be labeled
what they are.

Stress and Strain.

There is much confusion among
writers as to the definitions of the
terms stress and strain. An external
force applied to a body, so as to pull
it apart, is resisted by an internal
force or resistance, and the action of
these forces causes a displacement of
the molecules or deformation. By
some the external force is called stress
and the internal force, strain. By oth-
ers the names are reversed. This con-
fusion of terms is not important, as
the words are commonly used synony-
mously.

How Sects Grow.

Probably many religious sects rest
on the same foundation as the
Quakers. Two men, prominent in church work,
were traveling through a sparsely set-
tled community when they noticed two
churches immediately opposite each
other. Stopping a native they inquired
why there were two churches for so
few people. "Well, it's like this," he
replied. "The church members on the
right believe that Eve tempted Adam,
the ones on the left believe that
Adam was a rascal from the begin-
ning."—Columbus Dispatch.

Another Charleroi Case!

Time-tested by a Charleroi Resident.

Just another report of sickness and
suffering relieved by Doan's Pills.
Another Charleroi case that tells of
lasting benefit. What can be more
convincing? Thousands recommend
Doan's for backache, rheumatic pains,
headaches, dizziness, and distressing
urinary disorders. Doan's are a stimu-
lant diuretic to the kidneys. They
have helped thousands and should help
you. A Charleroi case.

Mrs. B. J. White, 180 McKain Ave.,
gave the following statement December
19, 1918: "I shall never forget how
my back pained when I had kidney
